Central - Business Block Summary Fact	The central currency is based on the central currency defined in the application setting GENERAL>CENTRAL CURRENCY CODE.
Available Offset Revenue (Gross)	If the 'Ignore Offset' flag is selected on the Offset Grid for the current offset, revenue will not be calculated into the 'Available Offset Revenue'. The Offset Revenue will still appear in the 'Total Offset Revenue.' If Offset Pickup has been entered for an offset, the Available Offset Revenue will be calculated on the original offset numbers minus the offset pickup numbers. For example, if the total offset was 30 rooms, and 10 offset pickups had been entered, the Total Offset Revenue would be calculated on 30 offset rooms, and the Available Offset Revenue would be calculated on 20 offset rooms.
Available Offset Revenue (Net)	If the 'Ignore Offset' flag is selected on the Offset Grid for the current offset, revenue will not be calculated into the 'Available Offset Revenue'. The Offset Revenue will still appear in the 'Total Offset Revenue.' If Offset Pickup has been entered for an offset, the Available Offset Revenue will be calculated on the original offset numbers minus the offset pickup numbers. For example, if the total offset was 30 rooms, and 10 offset pickups had been entered, the Total Offset Revenue would be calculated on 30 offset rooms, and the Available Offset Revenue would be calculated on 20 offset rooms.
